

Style Guide:

The Artist Market

Description/Purpose:

A digital marketplace that provides a space for artists and creatives to sell their work in a streamlined way. Production would be done through 3rd party sources to simplify things for the artists

Work would be submitted for verification before listing on the platform to prevent plagiarism and use of mass generated ai products.

Our brand is meant to feel friendly and accessible.

Audience:

The audience would be anyone interested in buying and selling art merchandise.

In a new era of ai mugs, keychains, and stickers, it would also provide comfort for people tired of vetting these aspects themselves.
